25X1A

MEMORANDUM: for [REDACTED]

Subject: Coordination of Research for Psych. Warfare

25X1A

1. Attached is the referenced paper alluded to by Mr. Reber in his memo to DD/I. Mr. [REDACTED] notes that page 7, Para. 5 excepts CIA's interests sufficiently to exclude this office from Mr. Reber's generalization (memo to DD/I - 3.a). It may be that Mr. [REDACTED] has or will touch base in OPC regarding his survey. The opinion in [REDACTED] office is that he is doing a thorough survey job and is not yet committed to any single solution.

25X1A

2. State Dept. is already coordinating external social science research, but within the government several departments and agencies are engaged in internal research projects in addition to sponsoring external research projects. The internal coordination machinery is not functioning, and [REDACTED] assistant agreed that PSB offered hope of most efficient coordination. Ideally, a special staff under the PSB would keep a record of all internal research projects, and approve all ~~xxx~~ requests for external research.
